Poštovani,

Izgrađene bazne stanice definisane su svojim koordinatama i tipom lokacije, dok pozicije koje su definisane kao potencijalno interesantne date su koordinatama u čijoj će se okolini tražiti rešenje za buduću baznu stanicu i deo su našeg dugoročnog plana razvoja mreže na navedenom području.

Lokacija navedene u tabeli obuhvataju potrebu za infrastrukturom koju u ovom trenutku možemo sagledati; a na osnovu dosadašnjeg iskustva i trenutnih pravaca razvoja javnih mobilnih mreža u svetu. S obzirom da su telekomunikacije jako dinamična oblast, te da se potrebe Korisnika neprestano razvijaju i menjaju ovu listu lokacija ne treba shvatati kao konačnu. Postoji mogućnost da se vremenom pojavi potreba za dodatnom lokacijama i dodatnim vrstama infrastrukture koje u ovom trenutku ne možemo predvideti.
